• **WEEF 2019 (World Engineering Education Forum)** the annual conference of IFEES (International Federation of Engineering Education Societies) will be hosted at Vellore Institute of Technology, Chennai from Nov 13 to 16. More than 1000 delegates are expected to participate from around the world. Papers will be presented and Keynotes talks delivered on the theme of “Disruptions in Engineering Education for a Sustainable World”. Call for Papers and other details are at <http://weef2019.org/>.

• **GSF 2019 (Global Student Forum)** will be held at VIT Chennai between Nov 10 to 13, 2019, prior to WEEF 2019. 150 students from around the world are expected to work on the Grand Challenges facing the world. SPEED (Student Platform for Engineering Education Development) is working with SCALE in the planning and implementation of GSF 2019. More information will soon be available at the SCALE website: <http://www.scaleitup.net/>.

• **SCALE (Student Consortium for Advancement of Learning Engineering)** conducted its Annual Student Conference on Jan 4 to 7, 2019 at CMR College of Engineering and Technology, Hyderabad, prior to ICTIEE 2019. 160 students from all over India participated in leadership development activities.

• **Grand Challenges Scholar Program (GCSP)** workshop was conducted by Dr. B. Ramakrishna of US National Academy of Engineering (NAE) and Dr. Lueny Morell of InnovaHiEd on Jan 5 and 6 in Hyderabad prior to ICTIEE 2019. Details are at:

<http://www.engineeringchallenges.org/GrandChallengeScholarsProgram/29252/31497.aspx>. Around 20 IUCEE colleges are now planning to submit proposals for starting the program at their institutions.
