

Mr. ROHINTON D. AGA

- An Industrialist

Mr. Rohinton D. Aga is the Chairman and Managing Director of Thermax Limited, a company actively involved in the areas of Energy and the Environment. Mr. Aga is also Chairman of Thermax Babcock & Wilcox Limited, a joint venture with Babcock & Wilcox of U.S.A., world leaders in combustion technology. The Thermax group has a turnover of around Rs. 400 crores and has a dedicated team of 3000 people.

By way of his academic background, Mr. Aga took a commerce degree from Bombay and completed his Economics Tripos at Cambridge. Some years later he went through a programme in Management Development at the Harvard Business School.

Mr. Aga has been a member of the National Committee on Quality of the

Confederation of Indian Industry (CII) and was for many years Chairman of the Maharashtra Chapter of the Quality Circle Forum of India. He is currently Chairman of the Energy Committee of the CII.

In 1993 he was awarded the Management of the Year award by the Bombay Management Association.

Mr. Aga has written a series of articles, over the years, on a variety of subjects related generally to business and management. A collection of these articles has been recently published by Tata McGraw-Hill under the title "Changing the Mindset - Reflections of Chief Executive".

Recently, this book has been selected for the Commendation-Prize by the Delhi Management Association - Escorts Book Award, 1995.

Giants International, India's first international service organization, set up in 1972, presented the 1995 awards to outstanding personalities in various spheres of activity. Mr. Aga received the award for his outstanding contributions in the field of business and industry.

Mr. R. D. Aga has been responsible for steering the fortunes of Thermax and making the company grow in the fields of Energy and Environment.
